Leadership Camp Testimonies

I went to the ACA Leadership camp in 2004. My experiences on this camp challenged me to do my best all the time and to help others. Also the camp was great fun. We got to do things like crawl along tunnels, and drive go-karts. I greatly enjoyed this camp and I feel I learnt some valuable lessons.

The Emu Gully Camp was an absolute life changer. It was inspiring, and very worth while the long trip up. I found it very challenging. My pride was constantly being put in check. I don't like making mistakes. I enjoy doing what I'm told. But at camp we had to think and work as a team. We often made mistakes. It humbled me. It taught me that making a mistake was part of life, and that it is what we do after that mistake that makes the difference. I really enjoyed the way Pete, our instructor, explained, instructed, and spoke. He explained everything with Biblical instruction, and firmness, like a dad to his child. I loved the discipline, like the set time for everything and all the instructions we had to follow. When we first arrived, not many of us knew each other very well, but by the end of the first day the difference was incredible. We all became so close and formed relationships that are rare and ones you don't get to form everyday. By the last night, we were a strong team, looking out for each other. We grew to understand that being a leader is being willing to do the nitty-gritty things in life. I loved the morning devotions where we read the Bible together. It is important and valuable, the way we should start the day. The food was the best camping food I have ever had! The Emu Gully Camp was awesome. I would recommend it to anyone.
